

# ALDEN AUTOMATED RV SATELLITE SYSTEM

From Sydney to Uluru and beyond you can now have perfect picture and sound quality wherever you travel.

With an intelligent and exclusive design, the system 'locks' on to your desired satellite and stores your favourite channels in memory for future.

No more climbing on the roof of your van to re-adjust the satellite dish either, instead, this can be done at push of a button from the inside of your RV.

The Satellite Search Control (S.S.C) can be used with most receivers.

## 900-06000 ALDEN AUTOMATED RV 12 VOLT SATELLITE

Satellite TV is delivered by communication satellites as opposed to terrestrial TV which is broadcast by radio frequency. The SSC unit supplements these and hence provides a wider range of channels including subscription-only services. The Alden satellite can be used with any existing receiver (using 10.7 GHz LO) that allows the reception of the channels from the chosen satellite and is especially designed to be used in leisure vehicles.

The unit mounts onto the roof of your vehicle and features an inbuilt safety device - should you forget to lower the satellite, upon ignition of your vehicle, the system will shut itself down. It works in two stages namely selecting the satellite you wish to utilize and step 2 would be selecting the zone that you are in. The Alden satellite dish is compatible with most pay TV providers such as SelecTV, Optus Aurora and many more. Comes with a 1yr warranty. Now you can have more TV choices further away from home!

Height (when folded down): 230mm  
Weight: 11.8Kg  
Dimensions: 980L x 745W (mm)

**YOU WILL NEVER MISS YOUR FAVOURITE TV SHOW AGAIN**

**900-06010**  
**SELECTV CARD**

---

SelectTV is a Digital Satellite TV service that provides a mix of the world's best Pay TV channels at an affordable price. The service is available to all regions of Australia and introduces a balance of premium channels to top up your TV viewing experience. The SelectTV Premium package includes over 300 movies every month, plus documentaries, music, international news, entertainment and kids programs, so there's always something to watch! International channel packages are also available in Greek, Spanish and Italian.

**900-06020**  
**OPTUS AURORA SMARTCARD**

---

The Optus Aurora system provides transmission of free-to-air services for a number of broadcasters. Reception can be direct to your RV via a satellite dish, set top box and the Optus Aurora Smartcard. The Aurora system operates in an encrypted format and by making use of smartcards within the set top box, it decrypts the service applicable to the entitlements of the smartcard being used. The Aurora free-to-air services are currently carried on the Optus C1 satellite, which is located at the 156 degrees East orbital slot, is available for a one off fee, so no extra monthly charges.\*

\*Conditions apply for travellers, some providers / channels may attract a yearly fee.

**900-06030**  
**STRONG SRT4664X DIGITAL SATELLITE RECEIVER**

---

The Strong SRT 4664X has new and improved features including PVR functions via the USB external mass storage device. This allows for a USB storage device to be fitted to record either Optus FTA (Free to Air) or Satellite Pay TV. It has a Time Shift function, record and playback which, once you've set the device to record a program, allows you to pause a show while the rest of it is being recorded by the unit. The USB 2.0 Host (inside the access cover of the unit) allows for MP3 playback, JPEG viewing and Firmware updates.

**Power Supply:** 12/24V DC, 3A Input (unit comes with a 12V cigarette lighter power lead and a 240V power adapter for convenient use at home)

**Dimensions:** 260W x 58H x 240D (mm)

**Net Weight:** 1.9Kg
