EAZ LIFT WEIGHT DISTRIBUTION HITCHES

Designed with ease of operation in mind, the Eaz Lift Weight Distribution Hitch has high grade machine tapered round spring steel bars and is available in a 600 or 800 Series with various shanks sold separately. The Eaz Lift range of weight distribution hitches include bolt together tow ball mounts that are completely adjustable for changing tow ball heights and angles to suit different applications. The left and right sway control mounting facility is already provided for, should you later require a sway control kit for additional towing comfort and safety. All necessary parts come with each hitch including hook-up brackets, spring bars, chains, tow ball mount, hitch pin, clip and bolt package for adjusting your hitch.

- *Please note shanks are sold separately*

TIP - Do not overload any part of your towing system. Consult the vehicle manual for towing recommendations and limitations.

WEIGHT DISTRIBUTION HITCHES

» **EAZ LIFT 600 SERIES (272KG)
WEIGHT DISTRIBUTION HITCH**
(NO SHANK) 350-05600

» **EAZ LIFT 800 SERIES (363KG)
WEIGHT DISTRIBUTION HITCH**
(NO SHANK) 350-05610

WEIGHT DISTRIBUTION HITCH AVAILABLE SHANKS

Used in either the high or low position to match the tow ball mount to any coupler height. Long hi-low shanks provide the extra length sometimes needed to obtain clearance from bumper interference.

» **HI-LOW SHANK**

Fits 2" x 2" receiver

Part number	shank size	length
350-05700	2" x 2"	10"***
350-05702	2" x 2"	8"

***BEST-SELLER HI-LOW SHANK

350-05700

350-05702

CAN BE USED IN HIGH OR LOW POSITION

EXTRA HI-LOW SHANK

350-05704

350-05706

CAN BE USED IN HIGH OR LOW POSITION

EXTRA LOW SHANKS

» **EXTRA LOW SHANKS**

Part number	shank size	length
350-05708	2" x 2"	10"

Tow ball mount and shank to be used in low position only

SWAY CONTROL BAR AND LUBRICANT

» The Eaz Lift screw on sway controls minimize the sway caused from passing trucks and sudden gusts of wind. Its double friction disc brake principle enables it to constantly reduce the sway and hence improves vehicle handling. Note: Vehicles over 24' may require two sway controls.

350-05800 **EAZ LIFT SCREW-ON SWAY CONTROL - DRIVERS SIDE/RIGHT HAND MOUNTED**
350-05810 **EAZ LIFT SCREW-ON SWAY CONTROL - PASSENGER SIDE/LEFT HAND MOUNTED**

» A non-toxic lubricant which helps to reduce friction and corrosion. It is recommended that you apply this lubricant to your Eaz Lift WDH daily while it is being used.

350-05500 **CAMCO EAZ-LIFT TRAILER HITCH LUBRICANT**
